Dear FSI Review

Our action groups in Tony Abbott's and Adam Bandt's Seats don't make many submissions because we care for frail aged carers, however there are too many elderly people that the FOS expect can make legalistic cases about fraud and con jobs. Elder Financial Abuse is awful against a generation who think bank managers are ethical people of high repute, not shysters in suits.

We must have 80 sets of loan documents from victims who lost superannuation and savings. Whatever happened to the laws of usury? Please peg interest to the Penalty Interest Rate Act rate - it's "only" 10% per year.

We are appalled at ASIC's infamous inaction against liquidators, directors, brokers, banks and bank executives. We are disgusted that Tony supports the watering down of director duties too. The circus of greed musy be stopped or the economy goes down the toilet. The social unrest unbalances society, Sir.

Our group therefore support all the sensible suggestions by

The federal police association, who seek American whistleblower and reward programs. (Please speak to Sean McKessy at the US SEC Office of Whistleblower for his ideas).

The US SEC speakers at the conferences - They are using anti-mafia tactics with great results! When will ASIC and FOS stop being friends with banks and bank lawyers?

Choice magazine, which Sen Nick Xenophon thinks are a superb group that are worth listening to.

Dr Peter Brandson's BankReformNow group

Spelta Bowel Cancer Foundation

The Editor and reporters at Fairfax Media

ABC TV, Alan Jones and all the other radio and tv people.

Senators Xenophon etc at the Senate Inquiry

Bendigobanksters

Unhappybanking

Levitt Robinson Lawyers

Incidentally, we see that ASIC marks some complaints as "Deflect". Obfuscation is unacceptable: please sack ASIC and appoint

Thank you
